ADDENDUM NO. 1

RE: Town of Cheyenne Wells, Colorado
13th St Waterline Replacement
WCI File: 20-600-092-00

To All Prospective Bidders:

The Contract Documents for the referenced project are hereby amended in the following particulars only, with all other conditions remaining unchanged.

A. PROJECT MANUAL

1. Section 00410 – Bid Form:
REPLACE entire section with attached.
2. Section 01025 – Measurement and Payment:
REPLACE entire section with attached.

This ADDENDUM is hereby made a part of the Bidding Documents to the same extent as though contained in the original documents. Work to be included shall not be limited to narrative description contained herein, but shall also include adjustments or revisions to other work not mentioned, in order to accomplish the Work described.

Each Bidder shall acknowledge receipt of this ADDENDUM in the space provided on the Bid Form.

WILSON & COMPANY

Brian Spano
Project Manager

SECTION 00410

BID FORM

Waterline Replacement

Cheyenne Wells, Colorado

WCI Project No. 20-600-092-00

13th St Waterline Replacement

ARTICLE 1 - BID RECIPIENT

1.01 This Bid is submitted to:

Town of Cheyenne Wells, Colorado
151 South 1st West
Cheyenne Wells, CO 80810

1.02 The undersigned Bidder proposes and agrees, if this Bid is accepted, to enter into an Agreement with Owner in the form included in the Bidding Documents to perform all Work as specified or indicated in the Bidding Documents for the prices and within the times indicated in this Bid and in accordance with the other terms and conditions of the Bidding Documents.

ARTICLE 2 - BIDDER’S ACKNOWLEDGEMENTS

2.01 Bidder accepts all of the terms and conditions of the Instructions to Bidders, including without limitation those dealing with the disposition of Bid security. This Bid will remain subject to acceptance for sixty (60) days after the Bid opening, or for such longer period of time that Bidder may agree to in writing upon request of Owner. Bidder will sign and submit the Agreement with the Bonds and other documents required by the Bidding Requirements within fifteen days after the date of Owner's Notice of Award.

ARTICLE 3 - BIDDER’S REPRESENTATIONS

3.01 In submitting this Bid, Bidder represents that:

A. Bidder has examined and carefully studied the Bidding Documents, and any data and reference items identified in the Bidding Documents, and hereby acknowledges receipt of the following Addenda:

<u>Addendum No.</u>	<u>Addendum Date</u>
_____	_____
_____	_____
_____	_____

B. Bidder has visited the Site, conducted a thorough, alert visual examination of the Site to the extent of the Bidding Documents and adjacent areas, and become familiar with and satisfied itself as to the general, local, and Site conditions that may affect cost, progress, and performance of the Work.

C. Bidder is familiar with and has satisfied itself as to all Laws and Regulations that may affect cost, progress, and performance of the Work.

D. Bidder has carefully studied all: (1) reports of explorations and tests of subsurface conditions at or adjacent to the Site and all drawings of physical conditions relating to existing surface or subsurface structures at the Site that have been identified in the Supplementary Conditions, especially with respect to Technical Data in such reports and drawings, and (2) reports and drawings relating to Hazardous Environmental Conditions, if any, at or adjacent to the Site that have been identified in the Supplementary Conditions, especially with respect to Technical Data in such reports and drawings.

- E. Bidder has considered the information known to Bidder itself; information commonly known to contractors doing business in the locality of the Site; information and observations obtained from visits to the Site; the Bidding Documents; and any Site-related reports and drawings identified in the Bidding Documents, with respect to the effect of such information, observations, and documents on (1) the cost, progress, and performance of the Work; (2) the means, methods, techniques, sequences, and procedures of construction to be employed by Bidder; and (3) Bidder's safety precautions and programs.
- F. Bidder agrees, based on the information and observations referred to in the preceding paragraph, that no further examinations, investigations, explorations, tests, studies, or data are necessary for the determination of this Bid for performance of the Work at the price bid and within the times required, and in accordance with the other terms and conditions of the Bidding Documents.
- G. Bidder is aware of the general nature of work to be performed by Owner and others at the Site that relates to the Work as indicated in the Bidding Documents.
- H. Bidder has given Engineer written notice of all conflicts, errors, ambiguities, or discrepancies that Bidder has discovered in the Bidding Documents, and confirms that the written resolution thereof by Engineer is acceptable to Bidder.
- I. The Bidding Documents are generally sufficient to indicate and convey understanding of all terms and conditions for the performance and furnishing of the Work for which this Bid is submitted.
- J. The submission of this Bid constitutes an incontrovertible representation by Bidder that Bidder has complied with every requirement of this Article, and that without exception the Bid and all prices in the Bid are premised upon performing and furnishing the Work required by the Bidding Documents.

ARTICLE 4 - BIDDER'S CERTIFICATION

4.01 Bidder certifies that:

- A. This Bid is genuine and not made in the interest of or on behalf of any undisclosed individual or entity and is not submitted in conformity with any collusive agreement or rules of any group, association, organization, or corporation;
- B. Bidder has not directly or indirectly induced or solicited any other Bidder to submit a false or sham Bid;
- C. Bidder has not solicited or induced any individual or entity to refrain from bidding; and
- D. Bidder has not engaged in corrupt, fraudulent, collusive, or coercive practices in competing for the Contract. For the purposes of this Paragraph 4.01.D:
 - 1. "corrupt practice" means the offering, giving, receiving, or soliciting of anything of value likely to influence the action of a public official in the bidding process;
 - 2. "fraudulent practice" means an intentional misrepresentation of facts made (a) to influence the bidding process to the detriment of Owner, (b) to establish bid prices at artificial non-competitive levels, or (c) to deprive Owner of the benefits of free and open competition;

3. "collusive practice" means a scheme or arrangement between two or more Bidders, with or without the knowledge of Owner, a purpose of which is to establish bid prices at artificial, non-competitive levels; and
4. "coercive practice" means harming or threatening to harm, directly or indirectly, persons or their property to influence their participation in the bidding process or affect the execution of the Contract.

ARTICLE 5 - BASIS OF BID

- 5.01 Bidder will complete the Work including all equipment, materials, labor and installation in accordance with the Contract Documents for the following price.

TOTAL BID PRICE:

_____ Dollars (\$_____).

(written)

Bidder acknowledges that (1) each Bid Unit Price includes an amount considered by Bidder to be adequate to cover Contractor's overhead and profit for each separately identified item, and (2) estimated quantities are not guaranteed, and are solely for the purpose of comparison of Bids, and final payment for all unit price Bid items will be based on actual quantities, determined as provided in the Contract Documents. The Unit Price Items detailed in Bid Form Attachment A shall be used to formulate the Total Bid Price for Unit Price work above.

TIME OF COMPLETION

- 6.01 Bidder agrees that the Work will be substantially complete and will be completed and ready for final payment in accordance with Paragraph 15.06 of the General Conditions on or before the dates or within the number of calendar days indicated in the Agreement.
- 6.02 Bidder accepts the provisions of the Agreement as to liquidated damages.

ARTICLE 6 - ATTACHMENTS TO THIS BID

- 7.01 The following documents are submitted with and made a condition of this Bid:
 - A. Required Bid security on Bid Bond Form 00430;

ARTICLE 7 - DEFINED TERMS

- 8.01 The terms used in this Bid with initial capital letters have the meanings stated in the Instructions to Bidders, the General Conditions, and the Supplementary Conditions.

ARTICLE 8 - BID SUBMITTAL

SECTION 01025

MEASUREMENT AND PAYMENT

PART 1 - GENERAL

1.1 DESCRIPTION

- A. Payment for work performed by the Contractor under these Contract Documents will be made at the approved contract unit price for each of the items listed in the bid and measured as hereinafter specified. Such payment shall compensate the Contractor for all costs in connection with furnishing all labor, equipment and material required and performing the operations necessary to complete the several items in accordance with the Contract Documents. All incidental work essential to completion of the project in a skillful manner, including cleanup and disposal of waste or surplus material, shall be accomplished by the Contractor at no additional cost to the Owner. Quantities listed in the bid are not guaranteed and are indicated only for convenience in comparing bids. Payment will be made for actual quantities constructed or installed as authorized by these Contract Documents; be they more or less than those listed; said quantities being measured and determined as follows:

Item No. 1 “Mobilization” will be paid for at the contract lump sum price. This item shall include all costs in connection with mobilizing construction facilities and equipment to and from the project site, preparatory work, and operations which must be performed or costs incurred prior to beginning work on the project site. Traffic control shall be subsidiary to this item.

Item No. 2 “Construction Staking” will be paid for at the contract lump sum price. This item shall include all costs in connection with construction staking; and all other incidental and appurtenant work required to complete this item.

Item No. 3 “Erosion Control” will be paid for at the contract lump sum price. Payment will be full compensation for all material, labor, equipment, tools and incidental items necessary to complete the work. Implementing erosion control methods during construction to prevent unnecessary silt/sediment discharge through downstream properties and/or storm sewer systems and periodic maintenance of sediment control measures as directed by Owner/Engineer shall be included. These controls may include but not limited to: biodegradable logs, triangular silt dike barriers, silt fences, temporary mulching, temporary seeding, construction entrances, sediment barriers, culvert inlet and curb inlet protection or other controls necessary to inhibit sediment runoff during construction. No extra payment shall be made for maintenance or removal of sediment control measures. Subsidiary items include clearing, grubbing, hauling, burning and disposal of removed material as necessary.

Item No. 4 “Grass Seeding” will be paid for at the contract lump sum price. This item includes all labor, equipment, and materials to seed along newly installed pipelines and all existing seeded areas disturbed by construction not scheduled to be re-surfaced. This item will include spreading of topsoil previously stockpiled during excavation; preparation of seedbed; grading; discing; harrowing; and firming of soil; seeding and mulching; matching existing grass type as area disturbed; and all miscellaneous work required to complete this item. Any areas disturbed by the Contractor outside these construction limits will be paid for by the Contractor at no additional cost to Owner.

Item No. 5 “Piping, PVC” will be paid for at the contract unit price per linear foot installed and measured on the centerline of the pipeline for the respective pipe size indicated on the Drawings (horizontal to existing grade—no additional length will be paid for required curvature of pipe). This item shall include all costs in connection with furnishing and installing all permanent and temporary pipe; fittings; special use fittings; caps or plugs; couplings; joint materials; seals; restrained joints and special use fittings; tracer wire; tracer wire access boxes and appurtenances as shown and specified in the contract documents; open trenching and over excavation of trench; directional drilling; stockpiling of topsoil; trench stabilization; pipe bedding; dewatering as necessary; standard excavation; tunneling under or removing and replacing

surface obstructions; discovery and protection of subsurface obstructions; bore pit excavation and over excavation; shoring and bracing as required; removing and replacing surface obstructions; fine grading and shaping trench bottoms; furnishing and installing pipeline bedding; concrete encasement as necessary; thrust blocking; backfilling and compaction; compaction testing; providing fill dirt as necessary; removal and replacement of surfacing (any type); coordinating with Owner on salvage or disposal of surplus and waste materials; flushing and disinfecting of the potable waterlines; electronic monitoring; testing; grading; notification and coordination with landowner; pipe location signs (where necessary); concrete encasement where required; sanitary sewer line/force main relocation where necessary required; removal and replacement of existing irrigation systems; disposal of surplus and waste materials; abandonment of existing system (after proposed system is in full service and coordinated with other contacts); and all other incidental and appurtenant work required to complete this item.

Item No. 6 “Gate Valve Assembly” will be paid for at the contract unit price for each valve installed respective to the valve size indicated on the Drawings. This item shall include all costs in connection with additional excavation and backfilling required; dewatering as necessary; discovery and protection of subsurface obstructions; removing and replacing surface obstructions; furnishing and installing valve assembly, valve box and cover; valve wrenches; shoring and bracing as required; crushed rock valve base; testing and adjusting the valve for proper operation; grading; removal and replacement of surfacing (any type); and all other incidental and appurtenant work required to complete this item.

Item No. 7 “Hydrant Assembly” will be paid for at the contract unit price for each such assembly installed. This item shall include all costs in connection with additional standard or over-excavation required; stockpiling of topsoil; standard and compacted backfill required; dewatering as necessary; discovery and protection of subsurface obstructions; removal and replacement of surface obstructions as necessary; furnishing and installing fire hydrant assembly (where necessary); removal and relocation of existing fire hydrant assembly, furnishing and installing flushing hydrant assembly (where necessary); storage, furnishing and installing flushing hydrant assembly (where necessary); furnishing and installing new valves for all hydrant isolations; furnishing and installing valve box and cover; blocking and porous drain; testing and adjusting hydrant for proper operation; grading; testing of existing hydrant to be relocated prior to removal; removal and backfill of existing hydrants that are not identified to be reused as part of construction; removal and replacement of surfacing (any type); and all other incidental and appurtenant work required to complete this item.

Item No. 8 “Water Service Connection” will be paid for at the contract unit price for each such connection installed and counted in place. This item shall include all costs in connection with coordinating shutdown of existing system with Owner and homeowner as necessary; open trenching and over-excavation of trench; stockpiling of topsoil; trench stabilization; dewatering as necessary; standard excavation and over-excavation; backfill and compaction; tunneling under or removing and replacing surface obstructions; discovery and protection of subsurface obstructions; shoring and bracing as required; fine grading and shaping trench bottoms; pipeline bedding; furnishing and installing all pipe, fittings, service saddles; corporation stops; couplings, joint materials and restrained joints; connection to the proposed and existing service line; removal and replacement of surfacing (any type); concrete blocks; tracer wire; appurtenances necessary to connect to the existing water distribution system; concrete encasement as required; removal and replacement of existing bituminous surfacing, concrete paving, gravel surfacing, brick surfacing and sidewalk as necessary; thrust blocking; backfilling and compaction; grading; disposal of surplus and waste materials; and all incidental and appurtenant work required to complete this item including any tunneling, boring, or pushing of the service line. Abandonment of existing water service line shall be subsidiary to this item.

Item No. 9 “Connection to Systems” will be paid for at the contract lump sum price. This item shall include all costs in connection with coordinating shutdown of existing/proposed system with Owner as necessary; open trenching and over-excavation of trench; stockpiling of topsoil; trench stabilization; dewatering as necessary; standard excavation and over-excavation; tunneling under or removing and replacing surface obstructions; discovery and protection of subsurface obstructions; shoring and bracing as required; fine grading and shaping trench bottoms; pipeline bedding; furnishing and installing all pipe,

fittings, special use fittings; valves; tapping sleeve and valve assembly; line stops/temporary isolations; testing and adjusting the valves for proper operation; caps or plugs; couplings; joint materials and restrained joints; crushed rock fill; concrete blocks; tracer wire; appurtenances necessary to connect to the existing/proposed water distribution system; concrete encasement as required; any removal and replacement of surfacing (any type); thrust blocking; backfilling and compaction; grading; disposal of surplus and waste materials; grading; and all incidental and appurtenant work required to complete this item.
